Manufacturers of Quality Rigid Plastic Boxes and Containers
Creators ◦ Designers ◦ Plastic Packaging Manufacturers ◦ Custom Molders

**DESIGNED –
CREATED –
MANUFACTURED –
DECORATED –
IN THE UNITED STATES OF AMERICA...**

A B.J. Plastic “BOX” shows your products better which helps sell your products better and faster.

A better package can increase your sales, reduce your packaging costs, reduce product damage, has direct customer appeal and a new product look.

The following pages will show you a variety of plastic boxes in many sizes and styles – hinged, living hinge, friction fit and round.

In today’s global marketplace your products need to attract potential customers with quality, at a competitive price, the right package, which especially now means a “reusable” rigid plastic box. A “reusable” and “recyclable” plastic box will protect and enhance your products and give the consumer a “reusable container” once the product has been used, which is something that a “blister” or “clam shell” generally will not do.

Starting in 1968, we have over forty-five years of experience in molding rigid plastic boxes and containers which are all manufactured within our own facilities. Our staff is always available to answer your questions regarding pricing, delivery, sample request, minimums and lead times.

Create your own package with a variety of stock colors, custom imprinting, including the “sharpness” of pad printing which enables the box to be printed with a UPC Bar Code. Your die cut information cards can be extended thru the back of the box between the “hinges” enabling your products to be displayed on a rack while eliminating the added cost of “blister” packaging. Need an insert? We can supply polypads available in a variety of colors to fit all of our stock plastic boxes, even rigid inserts can be supplied, if required. With over **130** stock sizes we are confident that you will find the correct size to fit your needs, if not, let us help you develop a package to your specifications.

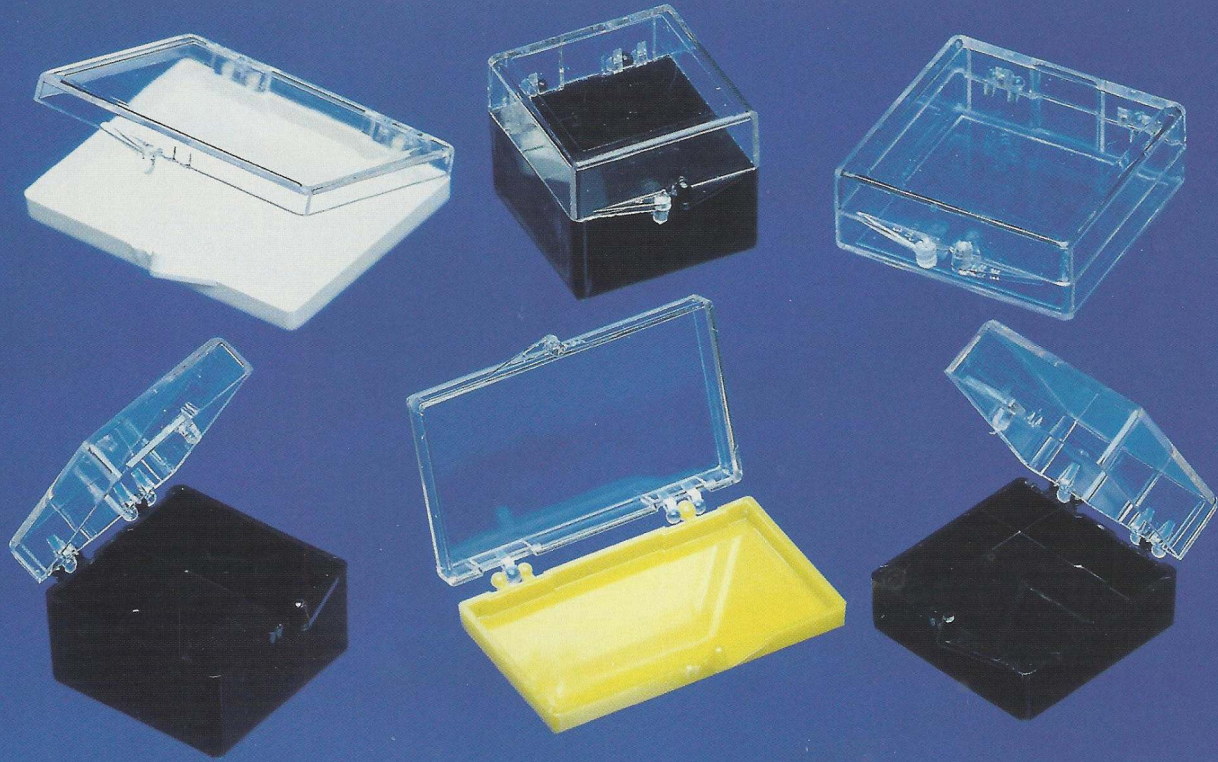

Hinged Boxes

Box No.	Inside Dimensions	Cover	Base	Packed
106	1" x 1" x 1/4"	1/8"	1/8"	Open 3000/ctn.
108	1" x 1" x 3/8"	1/8"	1/4"	Open 1800/ctn.

Terms and Conditions

- Rated Firms – 1% discount is allowed on invoices paid within 10 days from the date of invoice, net 30 days. (Discount applies to merchandise only.)
- Unrated Firms – Cash plus freight with order. (Please submit 3 credit references and bank to open an account.)
- When ordering Hot-Stamping or Pad Printing, please submit black and white artwork for stamping dies and printing cliches, otherwise there will be a development charge in addition to the standard die or cliché charge. Minimum hot-stamping or pad printing quantity: 5,000 pieces of one color to be released at one time. A standard set-up charge also applies.
- Imprinting/Pad Printing charges will be quoted upon receipt of artwork.
- All prices are F.O.B., our plant, Franklin Park, Illinois, United States of America.
- All quoted prices are subject to change without notice.
- Reasonable quantities of samples supplied without obligation.
- All dimensions are quoted inside and are approximate.
- Tutone means a clear “cover” with a colored “base”. Inverted tutone means a colored “cover” with a clear “base”.
- When requesting custom development, please state annual requirements, as well as normal “per release” requirements, quantity per carton, packed open or closed. If available, please send samples of the product, along with the present package.
- Please submit your tax exemption number with your order.
- Please advise your preferred means of transportation otherwise we will ship the best way at our discretion.
- The customer assumes ownership of merchandise at the time of shipment and must file claims against the carrier for shortages and damages.
- Return shipments will not be accepted without written authorization from B. J. Plastic Molding Co., Inc. A 20% restocking charge will apply.
- A “return authorization” is required for any unacceptable merchandise due to quality. (Send samples for our evaluation of any defects in the manufacturing process.)
- Quantity prices are based upon quantities on a per size, per color basis, thus combining various sizes into one total quantity is not allowed for better price breaks.
